rs. Cornelius Vanderbilt Introduc Her Daughter to the "Three Hundred." (BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Dec. 14.—(Exclusive Dispatch.) Mrs .Cornelius Vanderbilt created a stir in society, tonight, when only three hundred were summoned to the coming-out ball of her demure and pretty daughter, Gladys, aged seventeen, and heirean to \$30,000,000. This cuts the famous "490," and marks the drawing of a line which has long been predicted.

The ball sets the precedent for magnificent winter society events. Mrs. Astor's famous ball will hardly curpass it. The prevailing decorations were orchids and American Beauty roses, and thousands of dollars were spent for these alone. The debutante was beautifully, but simply, clad, in white chiffon over Crarina silk, and trimmed with tiny satin bow-knots. A plain silken girdle encircled the waist, and the skirt fell in ahirred lengths to the dainty sippers.

Among the guests was Miss Alice Roosevelt, who assisted the debutante, who has been her chum.

There is no probability of Mrs. Chadwick being released on ball. She would be called upon to furnish to the government bonds of \$15,000 on each indictment, or a total of \$75,000. Should she give this she would be rearrested on the two county indictments and asked for an additional bond of \$25,000. There is, mareever, a pessibility that she may be indicted a third time by the county, and if this should happen she would be asked for additional surely amounting to \$12,500. Shoals would be formed, it is aneged, and not less than 750,000 acres of fertile land would be endangered by any sudden rise of the water. The protest was made in writing, and was received by Col. Heuer, who said it would receive careful consideration. He stated that he had prenared a report on the subject which he would immediately forward to Washington, but at present he would not give out any intimation of its contents. Manager C. D. Clark of the California Navigation and Improvement Company said that the people of Stockton were much alarmed at the outlook, and were determined to continue their opposition to the project. This alarm is not shared by the railroad people, who say that a suspension bridge, which is proposed as a substitute for their plans, would be an impossibility, owing to the high grades which would be required for its approaches. Chief Engineer Wood of the Southern Pacific Company declared that no danger will result from the bridge. "If the bed of the stream consisted of hard rock," he said, "a raise of six 'aches might follow a flood, but as the bed is of soft material, it would doubtless quickly deepen. The bridge must be built on piles, for no other plan is feasible." Signers of other protests presented to Col. Heuer, which were the same in THE MIDDLE WEST

ernor an invitation to the inauguration. The committee is breathlessly awaiting his answer.

Meanwhile the committee has been inundated with protests against extending any invitation to Vardaman at all. Some of the letters maintain that Vardaman should not only be left without an invitation, but should be rigidily excluded from the city limits while the inaugural cersmonies are going on. Gen. George H. Harries, chairman of the Committee on Military, explains that the invitations to Governors are purely official, and that personalities are not to be considered.

COPPER QUEEN'S BIG SMELTING

Old Dominion and United Globe are New Under One Management. Shannon Smelter at Clifton Making

A syndicate of Los Angeles men waing a tract of more than 9000 acres to the heart of the recently-discovered it fields near Carlabad, N. M., has received some very encouraging news of the prospective development of that ald. In a private letter received by me of the gentlemen interested, it is tated that Colonization Agent Talware of the Santa Fé will establish to towns, one in the oil fields and he other on the main line of the same after the fields. Mr. Talwage was to arrive there last Monday a show a party of eastern people the roperty.

A survey has already been begun by the Santa Fé for the purpose of builds a branch rallroad to the fields. Oil an from the Beaumont, Tex., fields a reaching Carlabad every day, and at town is booming. Half a dozen have been sent to the new fields mm Los Angeles, and others are going m. Adams Broa, will leave for Larisd soon after Christmas with several foods of machinery.

"ractically all the land in the vicinals been taken up, but the Los spains syndicate controls the best of the Country a year ago was simply m range used only for graning pursues. The oil was discovered when cattlemen sunk a well for water of found oil instead. The quality of cell is said to compare favorably the best of the Pennsylvania duct. Land which a year ago could to been purchased for \$1.55 per acre now worth several hundred dollars are now sorth several hundred dollars.

SHANNON SMELTER.

The Shannon smelter at Clift.n is runnig out 1,000,000 pounds of copper a month, with a mine production of 600 tons of ore a day. The company has been reorganized, with several of the most prominent copper factors of the United States on the board of directors. Prof. James Douglas denies that Phelps, Dodge & Co. have been regoliating for control of the Shannon.

Prof. James Douglas denies that Phelps, Dodge & Co. have been negoliating for control of the Shannon.

Denial is made also of the rumor that he Arisona Commercial Company has been offered 20,000 shares of Old Dominion stock for the Copper Hill property at Globe.

Twenty claims adjoining the Copper Hill property have been acquired by the Globe and Arisona Development Company, a corporation mainly composed of Globe business men. It is proposed to develop the claims in the most thorough, yet most economical manner, with the hope that sreat ore sodies may be uncovered. The property includes an extension of the same reneral ore body running through the Did Dominion, United Globe and Copper Hill properties and has fine surface ore showing.

High-grade copper ore has been struck in the new Oliver shaft of the Copper Queen Company at Bisbee, at a depth of 1060 feet. Between this lepth and the 850-foot level are alternating strata of 2 to 4 per cent. ore, aggregating about three-fourths of the listance. The shaft has been equipped with one of the finest holsting plants in the Sonthwest, capable of handling workings to the depth of 3000 feet.

LUCK CAME AT LAST.

LUCK CAME AT LAST. Dick Lakenan has a prospect in Gold Gulch, near Clifton. He tried to sell it and to stock it for enough to do some development, but met with nothing but discouragement. Finally, in a financial condition that toordered upon bedrock, he put in just one more round of blasts. The result was like that told in Christmas stories, for the "shots" tore out shipping ore worth hundreds of dollars a ton. The rich ore is holding out, and he is making \$100 a day working the claim in the most modest working the claim in the most modest fashion. Several other good gold strikes have been made lately in the neighborhood of Clifton. George E. Stevens has found a large body of ore that will run from \$30 to \$60 a ton. Five ions of ore shipped from a new mine at Gold Hill, owned by Crawford & Awalt, returned \$30 a ton in gold and 18 per cent. lead.

NEW LEACHING PLANT.

NEW LEACHING PLANT.

H. P. McIntosh, inventor of a new leaching process, has returned to Florence from Los Angeles, where he has asranged for the construction of machinery for a leaching plant to be erected on the Gila River at The Buttes. The plant is to be owned by the Modern Mining and Metal Extraction Company. In the board of directors are included W. R. Wilson, H. J. Hill and Anna M. Wilson of Los Angeles, and M. C. Hester of Passdena. The plant will have capacity for fifty tons of ore a day and will be equipped for custom work.

At the Nadeau yesterday Judge A. E. Lawrence, a pioneer resident of the Puget Sound country, said:

"I am surprised to see the wonderful growth made by Los Angeles County. I have Just made my first trip to Long Beach, and was amazed to find there a modern city of 10,000 people living and doing business right on the ocean's edge. Up north our beach settlements are for summer only. But down here, where you have no winter, I think that surely Los Angeles will extend clear to the ocean. For such a live city such a destiny is inevitable.

"From its very extensive fir forests our Puget Sound country will send you lumber for all the building you may want to do here, and if you can arrange some sort of ingenious carrying system, we will loan you some of the 45 inches of rain we are annually blessed with much of which wastes by running off our hillsides into our bays.

"A blaze of glory Los Angeles looks

our hillsides into our bays.

"A blaze of glory Los Angeles looks like to me this evening," said R. L. Holman at the Van Nuys. "Except for a few landmarks, I would not recognize the city I knew ten years ago, so wonderful have been the changes and improvements. The grand electrical displays along the streets make me wonder if I am not in New York or Paris.
"I am just down from my mountain mines in the eastern end of Kern county, where we have small towns named after the rich mining centers of South Africa, and hope to make fully as good a showing later on.

"There is a fascinating future in mining up there, but it does seem good to again mingle in the throngs of civilization, to feast the eyes on the tasteful show-windows, to read the store-signs and gaze into the thousands of faces, most of them bright and cheerful."

"We hope to wake up some morning and find our Arisona a State," said J. H. Burke, of Maricopa, yesterday at the Westminster. "But in the meantime we are doing fairly well down there. We raise just as many cattle, and find the demand for beef just as good. We are not getting much emigration, and I don't know as we are needing much. Our cattle do wonderfully well along the meass and foothills of the Superstition mountains in Maricopa county, the meass and tootnist of the operation mountains in Maricopa county, where we have lots of room for our stock and are pretty well satisfied with present conditions. It is a pleasant change to come out to California conveniences occasionally, but I would always want to go back to the stock

longing to J. T. Forward, in Brazen Manner.

A villainous-looking ex-convict, a negro, was brought to the Police station yesterday in a rig he had stolen from the street. He gave the name of F. E. Berry. When they got him to the station he had the look of a spariing animal driven to bay.

The rig, a light runabout and a good left it hitched in front of the Broadhorse, belonged to J. T. Forward who way Bank at about 11 o'clock yesterday morning, while he was in the bank. When Forward came out, it was gone. Early in the afternoon, a darky tried to sell the rig at the Dakota Corrals. The proprietor gave him \$2 on account and notified the police. The thief's arrest followed in short order.

UNGRATEFUL HOBOS CINCHED.

OXNARD, Dec, 14.—The hobo nuisance is getting to a point where something will happen, if the endurance of the people is taxed much further. Something happened yesterday when two husky wanderers were handed out packages of sixty days each, by Justice Short, for stealing chickens. They had thrown people off their guard by accepting work when it was offered to them, and had done odd jobs all over the residence section of town. Their last job was on the premises of ira J. Hoswell, secretary of the Patterson Ranch Company, who not only gave them work, but a generous supply of ciothing as well, As a token of their gratitude they returned at night and robbed his hen roost, but Night Watchman McNaughton, caught them in the act.

City Attorney Mathews and E. E. Johnson sat together in row "side by each" as Barney Bernard would say. George Black of the executive committee called them "those sterling Jeffersonian Definicrats" in his speech; whereat everybody roared. Both Johnson and Mathews were endorsed by the Democratic convention.

Sprinkled along in between, sat the defeated board of education.

The young men of the executive committee who won where the older men have falled, fighting Snyder, sat opposite the chndidates.

When peas came on in a dainty little pasteboard cup, one of these lurid joshers called out to Committeeman Lewis of the Sixth Ward, in a tone of mock anxiety and solicitation, "Now you don't want to eat this; It's pasteboard," he said.

"That's all right" said Lewis cheerfully, "we can swallow worse than that in our ward; we swallowed that spook doctor Howton."

Everybody who made a speech had decided to say, "Now that the smoke of battle has drifted away.

When the first man rumbled out sonorously, "Now that the smoke of battle has rolled away." the others all started and jumped and looked daggers at him, just about the way you would giare at a man found in your chicken coop.

But a man is not to be driven away from his right, so they all came through with the "smoke of battle," anyhow.

The first man to come through the smoke was George Nathan Black, who,

The right to smoke fobacco on street cars was the pilicipal subject discussed yesterday afternoon at the Olivet Congregational church at the all-day federation meeting of the Women's Christian Temperance Union but the burning question was jeft undecided after a discussion by Dr. Mary Lightner for the affirmative and T. M. Stewart and Mrs. Emily Phelpa Boller for the negative. Dr. Lightner devoted considerable time to the right given to tobacco users by the constitution and her opponents held to the declaration that no one has any right to make himself obnexious to his fellows.

Money Taken.

E. S. Ramsay, a young electrician who recently came to this city from San Francisco, was the victim of a bold robbery shortly before 10 o'clock last night. He rooms at First and San Pedro streets and while returning from the Good Samaritan Mission started down Arcadia sireet between Los Angeles and Main. When he reached a dark place two men sprang out of a doorway and before Ramsay could defend himself or cry out, he was struck a violent blow on the left temple and fell unconscious to the sidewalk. The men then robbed him of \$11.45, all the money he had in the world, and left him lying where he had fallen. How long he remained there he does not know but when he regained consciousness he sent a messenger boy for a policeman who took him to the Police Station. Ramsay could give no description of his assailants.

Aside from the fact that Keniston does not play enough balk line to keep in shape for the visiting experts, he put up a fairly stiff game. Even if Sutton had not been victorious he certainly gave the local enthusiasts an opportunity of seeing how expert a man can become who not only plays billiards with his elbows, but chalks his cue the same way as gracefully as any ordinary player can do it.

hims but the winner, Phys. and he would have won in two more jumps. Hindoo Princess was put up as the book favorite and William E, was fairly well supported on account of what he did back East; it having been sacertained that he ran third once. Phys and Dusky Secret were the best liked by the wise people, and Phys managed to win from Martin by Sinnott's good ride. Secret set the pace and then could not keep it up at the finish.

The other races all went to heavily-played favorites. Winnifreda, El Otros, The Major, Chub and Interlude being picked by everyone to win, and all of them did. It seemed that the bookmakers must have been in a trance to sand and accept money on horses that figured to win on form and probability and everything else. They took everything offered them, however, and there was lots of it, for there was the usual big crowd at the races, and the betting ring was jammed with eager sports.

JOCK IS FINED.

In the second race at the finish, Kent, on Maggie Mackey, swerved into the rail, cut off three or four horses, and finished third himself. For this he was fined \$55 and Maggle Mackey disqualified.

[BY THE ASSOCIATED PRESS.-P.M.]
NEW YORK, Dec. 14.—Resolution

NEW YORK, Dec. 14.—Resolutions favoring a series of post-season games between the champion teams of the National and American Leagues for the championship of the world were adopted hele today at the annual meeting of the National League of Professional Baseball Clubs. The magnates stuck to the old schedule of 154 games for each club, stipulating, however, that in order to permit of the playing of post-season games, the schedule for the season should not extend beyond October 8.

The application of the minor leagues for a change in the regulations regarding the drafting of players from the smaller leagues were approved, and a new rule was adopted designed to restrict and properly punish players who

Asphalt men say they think an increase in price is likely after the first of the year, as by February orders begin to come in for the supply for the summer work in the East. The months of September, October, November and December are generally the dull season in this line as the cold weather now reduces the amount of street work to the minimum.

At present asphalt is sold in Los Angeles at about 18 a ton in large quantities. Recently some Kerne River product was offered at 37 per ton, but this is an unusual figure. Eight dollars is the lowest price that has prevalled here. There are eleven refineries in the city, a number of which are entirely shut down while some are running only half-time and others are operating night and day all the time. In Kern country there are eight refineries or asphalt reduction works, of which several are shut down.

The demand for the products of the refineries is generally good, although the price of distillate is low.

A pretty wedding was solemnized last evening in the Church of the Unity, Miss Corinne Eugenia Francis becoming the bride of John Houston Alexander, with Rev. Wesley Haskell officiating. The church was decorated with a profusion of greenery, amilax, and paims, and here and there clusters of white carnations and tulle were effective. At the entrances to the pews large bows of tulle were fastened, and tulle was also utilised in the altar decorations. Frank Colby was in charge of the wedding inusic, playing appropriate selections before the entrance of the bridal party, and on their approach "Lobengrin's" march, and at the close of the service, Mendelssohn's march. The bride was unattended, and was given away by her brother, Ira Johnson Francis She was attired in a clinzy gown of white crepe de chine inade with rechings and lace trimmings. DAY, DECEMBER 15, 1904.

Fancy stock is very short. There is a fair supply of the common stock. There is a good demand, which dealers expect will be maintained.

Despite the lateness of the season some Colorado appes continue to come in. One dealer reported having receied five, cars since Saturday morning and that he found the most of the stock a very fair quality. Other dealers as a rule, however, have not found the quality up to standard and report that the supply coming in is rather off color. It consists almost entirely of Ganos, the other varieties that are on the market being held over from earlier shipments. California stock continues to come out of cold storage. Several cars have lately come in from Washington and have been placed on the market. The stock consists of mixed varieties and the price is from 1.00G1.25.

Tornatoes were selling at the prices quoted yesterday with good demand: peas went at 465 cents and string beans 465; egg plant 465 and Lima beans 586. Asparagus is practically off the market. Some Northern cabbage was reported yesterday at 2 cents a pound. Artichokes are held at 1.00 G1.25 a dozen.

Glove and Merchandise Certificates

It is not always possible to find out just what some friend or relative whom you wish to remember at Christmas time really desires in which case it is better to buy merchandise certificates. We issue them for any amount entitling the holder to exchange the same for, any merchandise they may desire for the holidays. They are just as acceptable to the recipient as a check or draft and the giver need feel no rejuctance in presenting them as they ensure the recipient getting what he or she most desires. Particularly may it be said of gloves that to get the right size and shade is a difficult problem and for years glove certificates have been a very popular form of present; but if you wish to purchase the gloves ouright, we will give a dainty gift box with every three pairs. Furthermore, let us remind you to do as much of your shopping in the morning hours as possible as the store is now crowded in the afternoon and while we have hundreds of salespeople, the volume of business is so great you may not be waited on as promptly as you might desire.

This Morning's Leaders On Sale 8 to 11 A. M. Only

For these special morning sales no phone or mall orders will be filled. We find that the morning sales have struck the sympathetic chord with the public and while many realize that it is to their advantage to shop in the morning as much as possible prior to the holidays others have an idea that they can not drop their household duties to make morning shopping trips. Now we do not think that you will miss the time given but in order to assure ourselves that you will shop in the morning hours, we will daily from now until Christmas offer special inducements to make it worth your while to follow our suggestion in the matter.
